4.1 Description of first aid measures

General Information: If exposed or concerned: Get medical advice/attention. Call a POISON CENTER or doctor. Get medical advice if you feel unwell.

Inhalation: Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Vapors and mists may cause headaches, nausea, dizziness, and respiratory tract irritation.If symptoms develop and persist, seek medical advice in case of necessity.

Skin Contact: IF ON SKIN: Wash with plenty of soap and water. Get medical advice if you feel unwell. Take off contaminated clothing and wash before reuse.

Eye Contact: Immediately flush with plenty of water for at least 15 minutes. Get medical attention.

Ingestion: Rinse mouth. Do NOT induce vomiting.Consult with a doctor in case swallowing.

See the Section 8 .

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing Media

Suitable extinguishing media: All common extinguishing agents are suitable. Foam, carbon dioxide, dry powder.

Extinguishing media which must not be used for safety reasons: High pressure water jet.

5.2 Special Hazards Arising From the Substance or Mixture

Extremely flammable aerosol. Pressurized container: May burst if heated. Vapors are heavier than air and may travel a considerable distance to a source of ignition and flashback. Vapor/air mixtures are explosive. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

5.3 Advice For Firefighters

Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire fighting water from entering the environment.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Danger of explosion. Keep unnecessary people away, isolate hazard area and deny entry. Cool containers with water from unmanned hose holder or monitor nozzles until well after fire is out. Do not allow to enter into surface water or drains. Wear self-contained breathing apparatus with a full face-piece and protective clothing.

Skin Corrosion/Irritation: Causes skin irritation.

EC No.	CAS No.	Component	Toxicity
230-391-5	7085-85-0	Ethyl-2-Cyanoacrylate	Rabbit; 24h; Slightly irritating

May cause skin irritation. Bonds skin in seconds. Cyanoacrylates have been reported to cause allergic reaction but due to rapid polymerization at the skin surface, an allergic response is rare. Cyanoacrylates generate heat on solidification. In rare circumstances a large drop will burn the skin. Cured adhesive does not present a health hazard even if bonded to the skin.
