SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name:	DeWipe-Outs™ Pre-saturated Wipes containing a volumetric blend of 85% IPA / 15% DI Water
Part Number:	DeVilbiss Automotive Refinishing Part No. 803045
Product Description:	Lint-free, pre-saturated prep wipe.
SDS #:	SDS-56 Revision #: 7-15-2015
Chemical Formula:	Proprietary Wipe fabric, Isopropyl Alcohol, and Deionized Water.
CAS Number:	See Section #3, below
Article Code:	3006
General Use:	Use this wipe to clean and remove dust, dirt, residue, and static from surfaces to be painted.

Company Information: DeVilbiss Automotive Refinishing 11360 S. Airfield Rd. Swanton, Ohio 43558 Customer Service Phone: 1-800-445-3988

Emergency telephone number - CHEMTREC (24 HOURS): 1-800-424-9300

2. HAZARDS IDENTIFICATION

Label elements Hazard pictograms:	
Signal word:	DANGER!
GHS Class:	Flammable Liquid, Category 2 Eye Irritant, Category 3 Specific Target Organ Toxicity, Single Exposure, Category 3
Hazard statements:	H225 – Highly flammable liquid and vapor. H319 – Causes serious eye irritation. H336 – May cause drowsiness or dizziness.
Precautionarystatements:	 P210 – Keep away from heat/sparks/open flames – No smoking. P370 – IN CASE OF FIRE: Use dry chemical, carbon dioxide to extinguish small fires. Use water for large fires. P280 – Wear protective gloves/protective clothing/eye protection/face protection. P261 – Avoid breathing vapors. P403 + 233 – Store in a well-ventilated place. Keep container tightly closed. P501 – Dispose of contents/container in accordance with Local, State, Federal, and Provincial regulations. P305 – IF IN EYES: Rinse cautiously with water for several minutes. P304 – IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Finishing Brands.

	PRODUCT NAME: DeWipe-Outs™ 85/15	SDS#: SDS-56
	P312 – Call a POISON CONTROL CENTER or doctor/physician if P303 = 361 + 353 – IF ON SKIN OR HAIR: Remove/Take off all c clothing immediately. Rinse skin with water or shower.	
Emergency Overview: Route of Exposure: Potential Health Effects	DANGER! Flammable. Irritant. May cause drowsiness or dizziness Eyes. Skin. Inhalation.	3.
Eye contact:	Eye contact with product or vapors may result in irritation, redness vision. May cause pain disproportionate to the level of irritation to Vapors may cause eye irritation experienced as mild discomfort ar cause moderate corneal injury.	the eye tissues.
Skin contact:	May cause irritation. Repeated exposure may cause a burning ser dryness or cracking. Prolonged skin contact is unlikely to result in harmful amounts.	
Inhalation	Inhalation of vapors, fumes, or mists of the product may be irritating respiratory system. Excessive exposure (>400ppm) may cause eye throat irritation. Higher levels may cause loss of coordination, confiny hypotension, hypothermia, circulatory collapse, respiratory arrest, follow at longer durations and higher levels. In confined or poorly of vapors can readily accumulate and cause unconsciousness and d	e, nose, and fusion, and death may ventilated areas,
Ingestion:	May cause irritation. Ingesting large amounts may cause injury. M nervous system depression, nausea, and vomiting. Aspiration of n lungs can cause chemical pneumonitis which can be fatal.	
Chronic Effects:	Prolonged or repeated contact may cause skin irritation. Repeated or prolonged inhalation may cause toxic effects.	
Signs and Symptoms:	Overexposure may cause headaches and dizziness. Signs of excern include facial flushing, low blood pressure, and irregular heartbeat	
Target Organs:	Eyes. Skin. Respiratory system. Digestive system.	

Medical Conditions Aggravated by Long-Term Exposure: None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

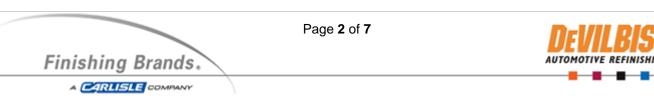

Name	% by Vol.	CAS Number	EC Number
Isopropyl Alcohol	85	67-63-0	200-661-7
Deionized Water	15	7732-18-5	231-791-2

4. FIRST-AID MEASURES

Description of first aid measures

Eye Contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, seek medical attention.

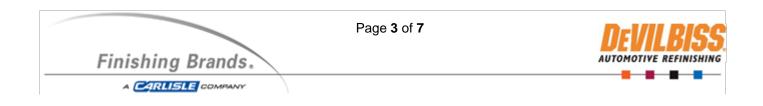

Inhalation: IF INHALED: Remove victim to fresh air and keep at rest in a comfortable position for breathing. Call the POISON CONTROL CENTER or a doctor/physician if you feel unwell.

- **Skin Contact:** IF ON SKIN OR HAIR: Remove/take off all contaminated clothing. Rinse skin with water or shower. If skin irritation occurs, get medical attention.
- Ingestion: IF SWALLOWED: Do NOT induce vomiting. Call the POISON CONTROL CENTER or a doctor/physician immediately. Never give anything by mouth to an unconscious person.

5. FIRE-FIGHTING MEASURES

Flash Point: Autoignition Temperature: Lower Flammable/Explosive Li Upper Flammable/Explosive Li Suitable extinguishing media: Unsuitable extinguishing medi	mit: 12.0% by volume Alcohol-resistant foam, dry chemical, carbon dioxide, water spray, fog.
Protective equipment:	In the event of a fire, wear appropriate full protective gear and a Self- Contained Breathing Apparatus (SCBA) in accordance with NIOSH, NFPA, and/or EN 137 guidelines, with a full face-piece operated in positive pressure mode.
Unusual Fire and Explosion Ha	zards: Material burns with an invisible flame.
Hazardous Combustion Bypro	ducts: Oxides of carbon, oxides of nitrogen, and other organic substances may be formed.
Universal Fire and Explosion H	lazards : Vapors are heavier than air and may travel along the ground or may be moved by ventilation to locations distant from the point of material handling or release.
NFPA Rating:	Health: 1 Flammability: 3 Instability: 0
HMIS Rating:	See Section 15.
6. /	ACCIDENTAL RELEASE MEASURES
	Evacuate the area and keep unnecessary and unprotected personnel from entering the spill area. Avoid breathing vapor, aerosol or mist. Avoid contact with skin, eyes, and clothing.
	Avoid runoff into storm sewers, ditches, and waterways. Comply with all governmental regulations regarding the reporting of chemical releases.
	Spills are very unlikely, because the wiper fabric has absorbed the liquid solvent solution. In the event of a spill, contain with an inert absorbent material.
	Remove all sources of ignition. Collect the wipes with a non-sparking tool and absorb or wipe any residual liquids. Place in a suitable container for proper

contact with the skin and eyes.

disposal. Use appropriate protective apparel as described in section 8. Avoid

7. HANDLING AND STORAGE

Handling	Use with adequate ventilation. Avoid breathing vapors and fumes. Use only in accordance with the directions.
Storage:	Store in a cool, dry, well-ventilated area away from sources of heat, combustible materials, direct sunlight, and incompatible substances. Keep container tightly closed when not in use. Keep away from aldehydes, halogenated organics, halogens, strong acids, and strong oxidizers.
Protective measures:	Wash thoroughly after handling. Avoid inhaling vapors, mists, or fumes.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters Exposure Guidelines:	Isopropyl Alcohol:	ACGIH: TLV-TWA: TLV-STEL: OSHA: PEL-TWA:	200 ppm 400 ppm 400 ppm
Exposure controls Appropriate engineering:	exhaust ventilation, or or recommended exposur personal protective equ other recognized standa	other engineering contro re limits. Where such system ipment which performs s	such as process enclosures, local ls to control airborne levels below stems are not effective wear suitable atisfactorily and meets OSHA or rofessionals for selection, training, tective equipment.
Personal Protection Equipme Eye Protection:	Safety glasses with sid	e shields must be worn a goggles and/or face shiel	at all times. If splash hazard exists, d.
Skin Protection:	data. Preferred glove m Polyethylene, Natural F	naterials include: Polyeth Rubber (latex), Polyvinyl · (nitrile or NBR), Ethyl vi	e manufacturer for permeability ylene, Neoprene, Chlorinated Chloride (PVC or Vinyl), nyl alcohol laminate (EVAL). Avoid
Respiratory Protection:	are exceeded or if irritat respirator regulations fo positive pressure suppli release, exposure levels	ion or other symptoms ar und in 29 CFR 1910.134 ed air respirator if there is	pproved respirator if exposure limits e experienced. Comply with OSHA or European Std. EN 149. Use a any potential for an uncontrolled rcumstances where air purifying
Other Protective:	Facilities storing or utiliz facility and a safety sho		be equipped with an eyewash

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Note: Unless otherwise stated, values are determined at 20°C (68°F) and 760 mm Hg (1 atm). Data represent typical values and are not intended to be specifications. Physical state: Solid with impregnated liquid Color: White.

	Winto:	
Odor:	Alcohol-like.	
Appearance:	Looks like a wet cloth.	
pH:	Not determined	
Freezing point:	Not determined	
Boiling point:	82 - 89°C (180 - 192°F).	
Flash point:	21°C / 69°F.	
Flammability (solid, gas):	Highly flammable.	
Upper/lower flammability or explosive limits: No data.		
Vapor pressure:	43.0 hPa (32 mm Hg) @ 20°C (68°F)	
Percent volatile	100%	
Relative Density:	Not determined	
Solubility in Water:	Soluble in water.	
Partition coefficient n-octanol/water: No data.		
Auto-ignition temperature:	399°C / 750°F.	
Decomposition temperature:	No data.	
Viscosity:	Not determined	
Specific Gravity (water=1):	0.834 g/cm³ @20°C (68°F)	

10. STABILITY AND REACTIVITY

Chemical stability:	Stable under normal temperatures and pressures.
Hazardous polymerization:	Not reported.
Conditions to avoid:	Keep away from heat, ignition sources, and incompatible materials.
Incompatible materials:	Aldehydes, halogenated organics, halogens, strong acids, strong oxidizers.

11. TOXICOLOGICAL INFORMATION

Isopropyl Alcohol Inhalation:	Inhalation – Rat LC50: 16000 ppm/8 hr. [Details of toxic effects not reported other than lethal dose value] Inhalation – Mouse LC50: 53000 mg/m ³ [Behavioral: General anesthetic Lungs, Thorax, or Respiration – Other changes] Inhalation – Rat LC50: 72600 mg/m ³ [Behavioral: General anesthetic Lungs, Thorax, or Respiration – Other changes] (RTECS)
Ingestion:	Oral – Rat LD50: 5045 mg/kg [Behavioral: Altered sleep time (including change in righting reflex), Behavioral: Somnolescence (general depressed activity)] Oral – Mouse LD50: 3600 mg/kg [Behavioral: Altered sleep time (including change in righting reflex), Behavioral: Somnolescence (general depressed activity)] Oral – Mouse LD50: 3600 mg/kg [Behavioral: General anesthetic] Oral – Rat LD50: 5000 mg/kg [Behavioral: General anesthetic] (RTECS)
Skin contact:	Administration onto the skin – Rabbit Std. Draize Test: 500 mg Administration onto the skin – Rabbit LD50: 12800 mg/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

Finishing Brands.

12. ECOLOGICAL INFORMATION

Complete Product Ecotoxicity: Environmental Fate:	No ecotoxicity data is available. No environmental fate data is available.
Isopropyl Alcohol Ecotoxicity:	LC50; Species: 1,400,000 µg/L for 48 hr. – Species: Crangon crangon (Common Shrimp) LC50; 10,000,000 µg/L for 24 hr. – Species: Daphnia magna (Water Flea) LD50; >5000 mg/L for 24 hr. – Species: Cassius auratus (Goldfish) LC50; 11,300 mg/L for 48 hr. – Species: Pimephales promelas (Fathead Minnows)
Environmental Fate:	Isopropyl Alcohol is expected to have a very high mobility through soil.
Bioaccumulation:	Bioconcentration in aquatic organisms is low.

13. DISPOSAL CONSIDERATIONS

The generator of a waste is always responsible for making proper hazardous waste determinations and needs to consider state and local requirements in addition to federal regulations.

Waste treatment methods

Finishing Brands.

A CARLISLE COMPANY

 Methods of disposal:
 Dispose of waste material in accordance with all local, regional, national, and international regulations.

 Hazardous waste:
 Not considered to be a Hazardous Waste as shipped.

 Packaging
 Container contents should be completely used and containers should be emptied prior to discard.

 Special precautions:
 None known.

14. TRANSPORT INFORMATION

	Solids containing flammable liquid, n.o.s. (Isopropanol). (Limited quantity). 4.1 II
	Solids containing flammable liquid, n.o.s. (Isopropanol). 4.1 II
Marine Pollutant:	No
